

## **International Journal of Engineering and Management - CONTENTS**

Published By : Serials Publications      ISSN: 0975-4490      Frequency : Bi-Annual

The International Journal of Engineering and Management (IJEM) is a refereed research journal which aims to promote the links between engineering and management. The journal focuses on issues related to the development and implementation of new methodologies and technologies, which improve the operational objectives of an organization. These include, among others, product development, human resources management, project management, logistics, production management, e-commerce, quality management, financial planning, risk management, and decision support systems. Thus, the journal provides a forum for researchers and practitioners for the publication of innovative scholarly research, which contributes to the adoption of a new holistic managerial approach that ensures a technologically, economically, socially and ecologically acceptable deployment of new technologies in business practice.

### **VOLUME 1, ISSUE 1 (JUNE 2009)**

#### **Special issue: Project Management in the Engineering field**

Konstantinos Kiirytopoulos, Editorial: Project Management in the Engineering Field, Pages: 1-3

Kekes, I. & Spyridakos, A., Towards an Evaluation Model for Educational Software Analyzing Evaluation Approach, Pages: 5-17

Atsalakis George & Zopounidis Constantin, Forecasting Turing Points in Stock Market Prices by Applying a Neuro-Fuzzy Model, Pages: 19-28

Mladen Vukomanovic, Mladen Raduikovic & Ivana Burcar Dunovic, Integrating BSC and EFQM: A Proposed Performance Management Framework in Construction Projects, Pages: 29-35

Nicola Costantino & Roberta Pellegrino, Real Option Approach for the Evaluation of Investment Projects The Case of a Multi-Fuel Power Station, Pages: 47-53

Alexander Maravas & John Paris Pantouvakis, Towards the Applications of Fuzzy Project Scheduling in Project, Pages: 55-62

Nicola Chiara & Nakhon Kokkaew, Risk Analysis of Contractual Flexibility in BOT Negotiations: A Quantitative Approach using Risk Flexibility Theory, Pages: 71-79

Konstantinos Kirytopoulos & Dimitra Voulgaridou, Applying Group Analytic Network Process (GANP) in Construction Projects. Pages: 81-89

Rizwan U. Farooqui, Syed M. Ahmed & Sarosh H. Lodi, Assessing the Project Management Culture in Construction Client Organizations in Pakistan-A Preliminary to Industry Performance Improvement, Pages: 91-100

**VOLUME 1, ISSUE 2 (DECEMBER 2009)**

Georgios Dounias and Constantin Zopounidis, Editorial, Pages: 103-104

Denetrios Cantzos, Toward a Complete Algorithm on Synthesis of Enhanced Audio from Low Bitrate Compressed Audio (Vol. 1 No. 2 (Dec 2009), Pages: 105-112

Sancharan Roy, Technology Management: Top strategic priority, Pages: 113-121

Kleopatra Petroustatou, Sergios Lambropoulos, Michalis Kavvadas, Road Tunnelling in Variable Ground in Greece: Design Practices, Construction Methods and Cost Estimates (Vol. 1 No. 2 Dec 2009), Pages: 123-135

Dimitra Voulgaridou, Mourotoglou Panayotis, Evaluating Inventory Strategies: An ANP Approach, Pages: 137-145

**VOLUME 2, ISSUE 1 (JUNE 2010)**
